How to upgrade firmware on a Lantronix CoBox Micro

Procedure Steps

To upgrade firmware on a Lantronix CoBox Micro loaded with firmware version 5.5 or older, do the following:

- 1) Download the new firmware file from Lantronix website (<http://www.lantronix.com/>). Save the .rom file in a location that is easy to access (such as **C:** or **C:\Cobox**).
- 2) Click the Start button, then select **Run**.
- 3) Type cmd and then click [OK].
- 4) Navigate to the directory that contains the new firmware.
- 5) Type the following and then press <Enter>:
tftp -i <cobox micro's IP> put <flash filename>.rom 3M
- 6) Type the following and then press <Enter>:
tftp -i <cobox micro's IP> put <firmware filename>.rom 4M
