How to run the Daylight Savings Time Utility

Procedure Steps

This utility should be run for OnGuard 5.10.309 or earlier.

Important: Run the Windows Daylight Savings Time patch on the database server first.

SQL Database

1) Open the LNLCONFIG table.

2) Modify the LNLSTRING from 5.9.131 to 5.09.131.

3) Run the Lenel DST Patch according to the instructions provided with the patch.

4) Modify the LNLSTRING from 5.09.131 to 5.9.131

5) Restart All LS Services

MSDE Database

1) Start the AccessDB tool [OnGuard Directory] and connect to the AccessControl database.

2) Run the following query using SQL Statement

UPDATE lnlconfig SET lnlstring='5.09.131' WHERE lnlconfigid=9

3) Run Lenel DST Patch according to the instructions provided with the patch.

4) Run the following query using SQL Statement in AccessDB

 UPDATE lnlconfig SET lnlstring='5.9.131' WHERE lnlconfigid=9

5) Restart All LS Services.

Applies To

OnGuard 5.10.309 or earlier
