Question

Where can I find a list of supported Microsoft updates?

Answer

Log into the LenelS2 Connect™ Portal

1. Navigate to the LenelS2 Connect portal at connect.lenels2.com.
2. Enter your **Username** and **Password**, and then click **Sign In**.

Note: The LenelS2 Connect™ portal at connect.lenels2.com requires a login to access.

The screenshot shows the login page for the LenelS2 Connect portal. The browser address bar displays connect.lenels2.com/s/login/?ec=302&startURL=%2Fs%2F. The page features a dark blue header with the LenelS2 logo and a navigation menu on the left. The main content area is white and contains a welcome message: "Hi, Welcome to LenelS2 Connect™". Below the message, it states: "If you're a registered user, please sign in with your email and password." The login form includes a red-bordered box containing the following elements: a "Username" field with a "Forgot Username?" link, a "Password" field with a "Forgot Password?" link, and a "Remember me" checkbox. Below the form is a blue "Sign In" button. Underneath the button is an "Or" separator, followed by a "Register for LenelS2 Connect" button. At the bottom, a blue box contains a reminder: "Remember: If you already have an account (or are not sure) you can look-up your username and/or reset your password via the forgot password form."

3. All supported Microsoft updates can be found under the **Resources > Microsoft Security Updates**.
4. Change the OnGuard version from the drop-down menu, if necessary. The list will auto-populate with relevant security updates.

Resources > Microsoft Security Updates

Microsoft Security Updates

Change Version

OnGuard 8.2 ▾

Applies To

OnGuard (All versions)

Additional Information

None
