

Installation Includes Non-essential Sentinel Services

Last Modified on 01/14/2022 12:55 pm EST

Problem Overview

Installation Includes Non-essential Sentinel Services

Detailed Description

The Sentinel Protection Installer run during the OnGuard installation includes services that are not required. The Sentinel Protection Server, Sentinel Keys Server, and Sentinel Security Runtime can be safely removed from your system using the Sentinel Protection Installer from Control Panel > Add or Remove Programs.

Applies To

Sentinel Protection Server

Additional Information

None
