Problem Overview

Onity Integra Locks: Door Does Not Come Out of AFC Office Mode with AFC Office on Enter and Second Swipe of Badge

Detailed Description

When AFC **Office when enter** is enabled on a lock and **Office when exit** is not, the lock will only relock (following an entry event) when either the **Relocking timer** expires or the **Deadbolt ends AFC office mode** option is enabled and invoked. When both AFC **Office when enter** and **Office when exit** are enabled on a lock, the lock will also relock when a valid card is used again, following the entry of exit events.
