

Area Access Manager Browser-based Client Reports Not Supported with Windows Authentication on Windows Server 2008 or Windows Vista (OG-18066)

Last Modified on 01/14/2022 11:30 am EST

Problem Overview

Area Access Manager Browser-based Client Reports Not Supported with Windows Authentication on Windows Server 2008 or Windows Vista (OG-18066)

Detailed Description

Reports will not run properly from Area Access Manager (Browser-based Client) with Windows Authentication on Windows Server 2008 or Windows Vista. For these operating systems, only SQL authentication is supported with browser-based reports.

Applies To

OnGuard 2009 (6.3.249) or later

Additional Information

None
