

Visitor Management Browser-based Client Applications Not Supported with Windows Server

Last Modified on 12/08/2021 7:13 pm EST

Problem Overview

Visitor Management Browser-based Client Applications Not Supported with Windows Server

Detailed Description

Due to the default IE enhanced security settings preventing the use of some browser components, Visitor Management Host and Administration are not supported on Windows Server 2003 or Windows Server 2008.

Applies To

Windows Server 2003
Windows Server 2008.

Additional Information

None
