

Visitor Management: After Adding List Builder Items, IIS Must be Restarted (DE318)

Last Modified on 01/14/2022 2:01 pm EST

Problem Overview

After Adding List Builder Items, IIS Must be Restarted (DE318)

Detailed Description

List Builder items sometimes do not appear in user-defined drop-down fields. After making changes in List Builder, it is necessary to restart IIS.

Applies To

OnGuard 2010 (All versions)

Additional Information

None
