

Spserve.exe Service Stops or Closes Unexpectedly When More Than 20 TB of Storage is in Use (OG-19312)

Last Modified on 12/10/2021 10:52 am EST

Problem Overview

Spserve.exe Service Stops or Closes Unexpectedly When More Than 20 TB of Storage is in Use (OG-19312)

Detailed Description

A maximum storage capacity of 20 TB is recommended for LDVR. Larger storage sizes may cause the spserve.exe service to use a high amount of memory, causing it to eventually stop or close unexpectedly.

Applies To

OnGuard 2010 (6.4.500)

Additional Information

None
