Audio Supported Only on Channel 1 with AXIS 7404 Video Encoder (OG-18932)

Last Modified on 02/08/2022 8:59 am EST

Problem Overview

Audio Supported Only on Channel 1 with AXIS 7404 Video Encoder (OG-18932)

Detailed Description

Audio is currently only supported for channel 1 on AXIS 7404 video encoders. Currently it is possible to configure audio for other channels, however these will not work properly.

Applies To

OnGuard 2010 (6.4.500)

Additional Information

None
