Enterprise: Referential Integrity Error when Saving Camera Layouts

Last Modified on 04/11/2025 12:23 pm EDT

Problem Overview

Enterprise: Referential Integrity Error when Saving Camera Layouts

Detailed Description

If a camera layout is saved with cameras added from another Regional Server via the Camera Lookup feature, a Referential Integrity error may occur. To save a layout that generates the error, remove the cameras located on other Regional Servers from the layout prior to saving.

Applies To

OnGuard 2010 (6.4.500)

Additional Information

None
