

# How to install SQL Server Management Studio for SQL Server 2008 Express

Last Modified on 12/10/2021 2:30 pm EST

How to install SQL Server Management Studio for SQL Server 2008 Express

## Procedure Steps

1. From the *OnGuard Supplemental Materials disc* (revision 9 or later), browse to the **Prerequisite Software** folder, and then to the **Microsoft SQL Server 2008 Express** folder.
2. If you have a 32-bit version of Microsoft Windows, execute **SQLManagementStudio\_x86\_ENU.exe**.  
If you have a 64-bit version of Microsoft Windows, execute **SQLManagementStudio\_x64\_ENU.exe**.
3. Click [Installation], and then click [New SQL Server stand-alone installation or add features to an existing installation].
4. The **Setup Support Rules** window identifies potential problems that might occur during installation. Correct any failures before continuing setup. If setup identifies no problems, click [OK].
5. In the **Setup Support Files** window, click [Install].
6. After the setup files have been installed, the Setup Support Rules will run again to identify potential issues. Resolve any failures before continuing setup. Once the check has completed successfully, click [Next].
7. In the **Installation Type** window, select **Perform a new installation of SQL Server 2008** and then click [Next].
8. In the **Product Key** window, click [Next].
9. In the **License Terms** window, select **I accept the license terms**, and then click [Next].
10. In the **Feature Selection** window, select **Management Tools - Basic**, and then click [Next].
11. Review the disk space requirements information and then click [Next] if there is sufficient space on the disk.
12. In the **Error and Usage Report Settings** window, deselect both options. Click [Next].
13. The **Installation Rules** window identifies if anything would stop the installation process. If there are no failures, click [Next].
14. In the **Ready to Install** window, click [Install] to begin the installation.
15. After the installation process finishes, click [Next].
16. In the **Complete** window, click [Close].

## Applies To

OnGuard 2009 (6.3.249) or later  
Microsoft SQL Server 2008 Express

## Additional Information

None
