Error in System Administration: "The cursor does not include the table being modified or the table is not updatable through the cursor"

Last Modified on 06/06/2025 12:27 pm EDT

Symptom

You might encounter the following error in System Administration:

"The cursor does not include the table being modified or the table is not updatable through the cursor.
The statement has been terminated."

Resolution

To resolve this issue, ensure the server name in SQL Server is correct for the database server.

For more information, refer to article "*How to modify the server name in SQL Server"*

Applies To

OnGuard (All versions)
 SQL Server (All versions)
