

Required IIS Roles for Web applications

Last Modified on 12/21/2021 4:38 pm EST

Symptom

If IIS is installed but all the appropriate roles are not, you may receive the following symbols when browsing to one of the OnGuard browser-based applications:

););

Resolution

Make sure all required roles are installed.

For Windows Server 2008:

- Click Start, Control Panel
- Click Programs and Features
- Click Turn Windows features on or off
- Click on Roles
- Click on Add Roles (right hand side)
- Wizard starts, click Next
- Check Web Server (IIS), click Next
- Click Next
- Under Role Services, check:

Web Server
