

My Lenel Power Supply is tripping the GFCI outlet or breaker every time I turn it on

Last Modified on 12/22/2021 10:19 am EST

Symptom

When you wire the new AL400ULX with EMI filter to a GFCI outlet or GFCI breaker, the outlet or breaker trips immediately.

Resolution

You must use either the GFCI or EMI protection, but not both.

Applies To

OnGuard 2010 (6.4.500) or above
