

How many devices can you put on each NGP SNAPP BUS?

Last Modified on 12/23/2021 1:20 pm EST

Question

How many devices can be connected to each SNAPP bus on the NGP controller?

Answer

The NGP controller is limited to 24 devices per port. This cannot be controlled from the host without knowing into which port it is wired.

Applies To

OnGuard (All versions)

Additional Information

None
