

Multimedia Capture Button not working

Last Modified on 01/18/2022 4:02 pm EST

Symptom

Multimedia Capture button does not work. When clicking [Capture], nothing happens, and no error is shown.

Resolution

Resolve this issue by adding the **captureu.dll** file if it is missing. You can find the file on the OnGuard disc in **Program Files > Onguard**. If the file is not missing, you must register the file.

Applies To

OnGuard (All versions)
