# When exporting AVI file format from SkyPoint, what CODEC pack should be used?

Last Modified on 01/10/2022 1:05 pm EST

## Question

When exporting an AVI file format from SkyPoint, what CODEC pack should be used?

## Answer

There is no correct codec pack to use. Any CODEC is acceptable. However, OnSSI uses the DIVX CODEC for most of their testing, and therefore recommends this CODEC.

## Applies To

SkyPoint

## Additional Information
