Question

What folders should I exclude from anti-virus scanning on my OnGuard machines?

Answer

On 32-bit Operating System:

C:\ProgramData\Lenel
C:\ProgramData\Lnl
C:\ProgramData\Flexnet*
C:\Program Files\OnGuard
C:\Program Files\Common Files\Lenel
C:\Program Files\Common Files\Lenel Shared (OnGuard 6.5 and later only)
C:\Program Files\Common Files\OnSSI

On 64-bit Operating System:

C:\ProgramData\Lenel
C:\ProgramData\Lnl
C:\ProgramData\Flexnet*
C:\Program Files (x86)\OnGuard
C:\Program Files (x86)\Common Files\Lenel
C:\Program Files (x86)\Common Files\Lenel Shared (OnGuard 6.5 and later only)
C:\Program Files (x86)\Common Files\OnSSI

On Server 2003 and Windows XP systems:

C:\Documents and Settings\Application Data\All Users\Lenel
C:\Documents and Settings\Application Data\All Users\Lnl
C:\ProgramData\Flexnet *
C:\Program Files\OnGuard
C:\Program Files\Common Files\Lenel
C:\Program Files\Common Files\Lenel Shared (OnGuard 6.5 and later only)
C:\Program Files\Common Files\OnSSI

Applies To

OnGuard (All versions)
Flexnet (All versions)

Additional Information

Note: All subfolders inside the above directories also need to excluded. Refer to your anti-viruses product manual to ensure the necessary exemptions are made.
* The "c:\ProgramData" folder may be hidden.
