"Error reading System Options" error after upgrade using SQL

Last Modified on 02/04/2022 8:56 am EST

Symptom

After upgrading using Microsoft SQL Server, the following error appears:

`"Error reading System Options"`

The following error appears if you click **OK** on the first error:

`"Error reading segment..."`

Resolution

To resolve this issue, run Database Setup.

Applies To

OnGuard (All versions)
