

# Language Pack Errors

Last Modified on 02/04/2022 9:33 am EST

## Symptom

After running the Database Translator, the following error messages appear when logging into **Alarm Monitoring > System Administration**:

"Intended Operation Not Supported."

"Found an inappropriate Argument"

## Resolution

To resolve this issue:

1. Select **Control Panel > Regional Settings \*(Region and Language) > Format Tab**.
2. Select English and the appropriate location.
3. Restart the OnGuard workstation.
4. Open System Administration.

## Applies To

OnGuard (All versions)

## Additional Information

This issue applies only to OnGuard versions that have Language Packs.
