Oracle Database purge time

Last Modified on 06/10/2025 10:18 am EDT

Symptom

Oracle databases take a long time to purge records.

Resolution

This is due to the number of commits, but certain settings can be modified by an Oracle DBA.

Commit behavior:
- `alter system set commit_logging='IMMEDIATE' scope=spfile;`
- `alter system set commit_wait='NOWAIT' scope=spfile;`

Memory increase:
- `alter system set sga_max_size=5000M scope=spfile;`
- `alter system set sga_target=2500M scope=spfile;`

Applies To

OnGuard (All versions); Oracle 11g
