

"OLE initialization failed: make sure that the OLE libraries are the correct version"

Last Modified on 01/10/2022 4:54 pm EST

Symptom

Launching an OnGuard application presents the following error:

OLE initialization failed: make sure that the OLE libraries are the correct version

Resolution

Browse your Add/Remove Programs for any unknown software.

Scorpion Saver is known to cause this issue.

After removing the unknown software, run a malware scan using a third-party program such as MalWare Bytes.

Applies To

OnGuard (all versions)
