Troubleshooting LNREvents Database Corruption Driver Error in Panel Download

Last Modified on 02/04/2022 12:24 pm EST

Symptom

Troubleshooting LNREvents Database Corruption Driver Error in Panel Download

Resolution

1. In System Administration, mark all cameras offline.
2. Download the recorder.
   A driver error will still occur, that is OK.
3. Log on to the recorder in question.
4. To rebuild the database on the recorder, follow Article How to rebuild Lenel NVR7 Database
5. When the recorder comes back online, push a download to it from System Administration.
6. Mark the cameras back online one at a time after the download completes.

Applies To

OnGuard (all versions); LNVR7
