How to access OnGuard documentation

Procedure Steps

The OnGuard documentation can be viewed as either user guides formatted for print (PDF) or online help.

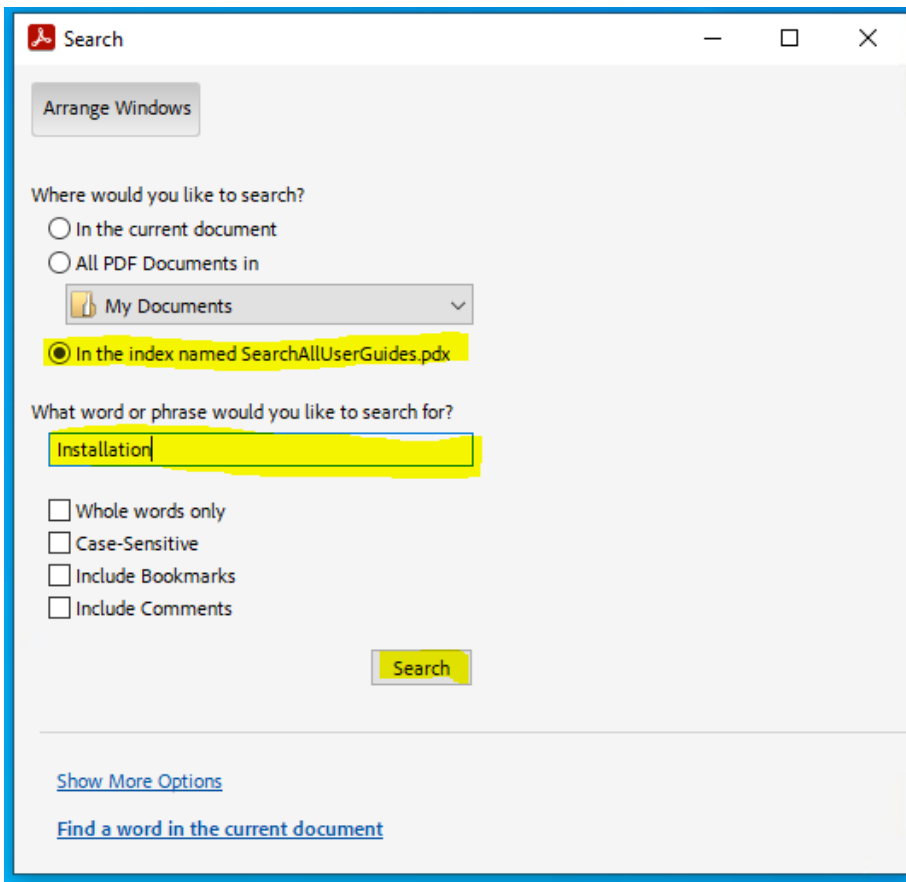

To access the PDF files with OnGuard installed:

1. Click Start, then All Programs > OnGuard version> > Search all User Guides.
2. A Window with a Security Warning will pop up, which states:
"The operation you are trying to perform potentially requires read access to your drives. Do you want to allow this operation?"

Select **Allow**.

3. By default the "Where would you like to search?" is directed toward the user guide directory.
4. Enter search term(s) and select **Search** to retrieve all pdf user guide files with related information.

To access help options within OnGuard applications:

1. Log into the OnGuard application you wish to view help for.
2. On any screen in the application press **Help > Contents or Search** for that particular screen.
3. Alternatively you can press **F1** as a shortcut to this option.

To access the PDF files on the OnGuard installation disc:

1. Navigate to **program files\OnGuard\doc\en-US**.
2. You will see a list of PDF files. Double-click a PDF to open it.

To download the PDF files from the Web:

1. Log into <https://connect.lenels2.com/s/>.
2. Click on **Downloads**
3. Select **OnGuard** and the **version** of you wish to view the guides from
4. Change the type of download to **User Guides**

Applies To

OnGuard (All versions)

Additional Information

None
