Enable/Disable "Reset now" button in Global APB

Procedure Steps

The "Reset Now" button for Global APB can be restricted as follows:

- From OnGuard System Administration menu bar:
 - Select Administration----> Users
 - Select System Permission Groups
 - Click the 'Modify' button
 - Select Software Options
 - Expand the Software Options tree
 - On the "System configuration" filed, enable the "View/Access" and "Modify" switches.

- Click 'OK' to save changes.

Applies To

OnGuard (All versions)

Additional Information

None
