

Error: Could not locate class-to-execute: Upgrade_6_0_EnterpriseAllocation. Execution failed.

Last Modified on 01/11/2022 11:23 am EST

Symptom

The error:

DBSETUP_CTE_LOG is missing

May display when updating OnGuard 6.0 to 7.0 or higher in Database Setup.

Resolution

Execute the following query against the AccessControl database:

```
insert into DBSETUP_CTE_LOG (OG_BUILDDID, CTE_NAME, TABLE_NAME) values ('50148003', 'Upgrade_6_0_EnterpriseAllocation', 'VISIT')
```

Applies To

OnGuard 6.0

OnGuard 7.x

Additional Information

None
