

LS Certificate Store Missing From Local Computer's Console Root

Last Modified on 01/11/2022 2:00 pm EST

- **Symptom**

LS Certificate Store missing from Console Root on Local Computer

- **Resolution**

1. Open a Command Prompt as an Admin.
2. Change directory to **C:\Program Files (x86)\OnGuard\Certificates**.
3. Enter the following command and press [Enter]: `makecert.exe -ss "LS Certificate Store" -sr localmachine`
4. To recreate the certificate for OnGuard in the correct location, execute the following command:
`Inl_app_server_certificate_installer.exe -key=C:\ProgramData\Ln\nginx\conf\ls_server_cert_key.pem -cert=C:\ProgramData\Ln\nginx\conf\ls_server_cert.pem -store="LS Certificate Store" -cn=`
Note: Replace with the name of the server. It is recommended to use the fully qualified domain name of the server.

- **Applies To**

OnGuard (all versions)

- **Additional Information**

None
