Increase timeout count for database connections

There is option to increase timeout count on database connection in ACS.ini file.

Procedure Steps

1. Back up your acs.ini
2. Run notepad as administrator
3. Open acs.ini
4. Add these settings

[DataBase]
Timeout=600

Applies To

All OnGuard Versions

Additional Information

The default value is 60 seconds. It will increase all database connections on server/client
