

How to correct issue with LicenseExpirationDebug.log growing

Last Modified on 01/11/2022 4:50 pm EST

How to correct issue LicenseExpirationDebug.log growing on default installations of OnGuard 7.4.

Procedure Steps

1. Open Notepad as Administrator.
2. In Notepad, open **C:\Windows\ACS.ini**.
3. Find the [Service] section.
4. Locate the entry **LicenseExpirationDebug=1**, and then change it to **LicenseExpirationDebug=0**.
5. Save the ACS.ini file.
6. In **Start > Run**, type Services.msc.
7. Stop and then restart the Linkage server.
8. Delete the LicenseExpirationDebug.log file.

Applies To

OnGuard 7.4
