SQL Server Data Source drivers used with OnGuard

Last Modified on 06/05/2025 4:17 pm EDT

Symptom

SQL Server Data Source drivers used with OnGuard

Resolution

OnGuard 7.3 and earlier installed with SQL Server requires that SQL Server Data Sources use the **SQL Server Native Client 11.0 driver**. OnGuard 7.4 and later installed with SQL Server requires that SQL Server Data Sources use the **SQL ODBC Driver for SQL Server**.

Applies To

OnGuard (all versions)
