

The table events_restored does not exist in table

Last Modified on 06/06/2025 9:48 am EDT

Symptom

When attempting to archive, purge, or run a report, you might encounter the error:

The table events_restored does not exist in table

Resolution

Run the following query against your Access Control database:

```
alter view events_archived as select * from dbname.dbo.EVENTS_RESTORED
```

change dbname to your archival database. For example:

```
alter view events_archived as select * from AccessControlArchive.dbo.EVENTS_RESTORED
```

Applies To

OnGuard (all versions)
