V5.4.3 - Max Number of supported credential formats increased from 32 to 64.

Last Modified on 08/22/2022 1:19 pm EDT

As of V5.4.3 the Netbox access control system and Network Nodes now support a maximum number of 64 card formats that can be defined on the Credential Formats page under Configuration: Access Control. Prior to v5.4.3 the max was 32.

Tested and verified on all past and current node models.

Person record page will display up to 64 active/enabled credential formats for selection.

Max number of enabled Credential Formats in Netbox = 64

Max number of Credential Formats for "Mercury Supported" = 16
