

How to access NetBox ecosystem documentation

Last Modified on 11/20/2025 9:08 am EST

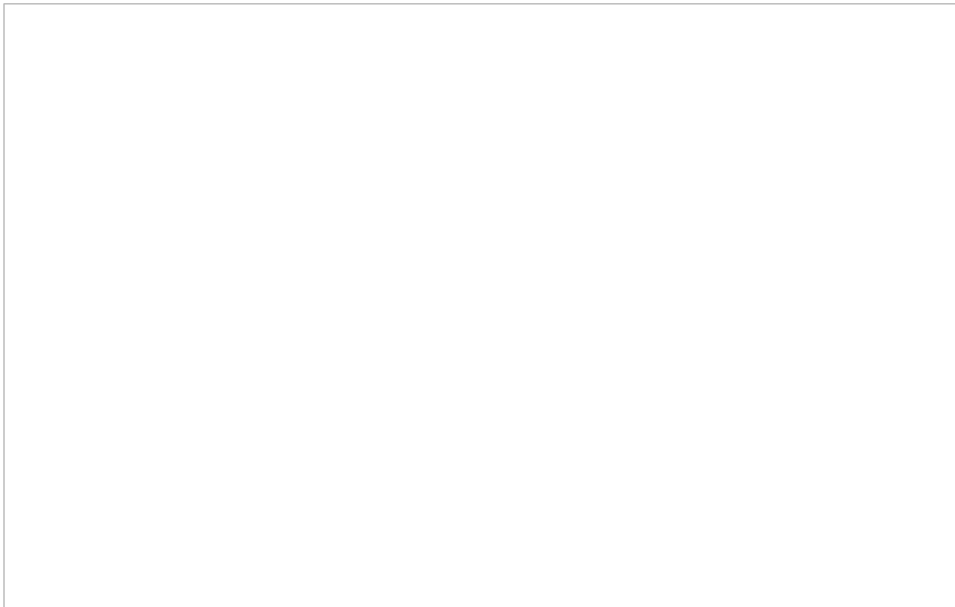

Any NetBox ecosystem documentation can be downloaded from [Honeywell's MyBuildings website](#).

You have two options for finding documents related to the NetBox ecosystem:

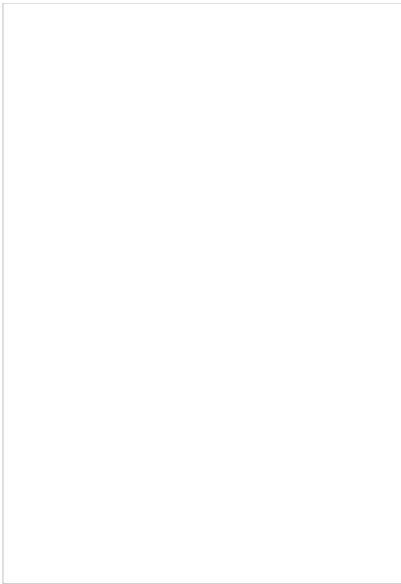

First, you can browse and use the Search feature in the document library to find the relevant documentation.

To locate the NetBox documentation:

1. Go to <https://buildings.honeywell.com/us/en> and select **Sign In** > **Sign in to MyBuildings**.
2. Navigate to **Support** > **Document Center**.
3. Click **Brand** and then select **LenelS2**.

4. In the **Product Family** filter, select **NetBox**.

5. Select additional filters such as **Product Category**, **Publication Type**, and **Release Date**.
6. In the Search box, enter the term you wish to search for, and then click the magnifying glass icon to search. Revise your search contents and/or filter to locate the document you need.

Second, to reach product-specific pages, navigate to the NetBox product page on the Honeywell MyBuildings website at <https://buildings.honeywell.com/us/en/brands/our-brands/lenels2/security-products/netbox>.

Choosing a product type will bring you to a page or series of pages dedicated to whatever product you chose. Those pages will have links to the related documentation, or lead you to documentation specific pages for that product.

If you need help locating specific documentation, please contact Technical Support by calling **+1.866.788.5095** or emailing support.lenels2@honeywell.com.
