

# How to Access NetBox Ecosystem Documentation

Last Modified on 01/31/2023 3:36 pm EST

Any NetBox Ecosystem documentation you might need can be downloaded from Support Central.

You can access Support Central by logging in to <https://portal.lenels2.com/support/>

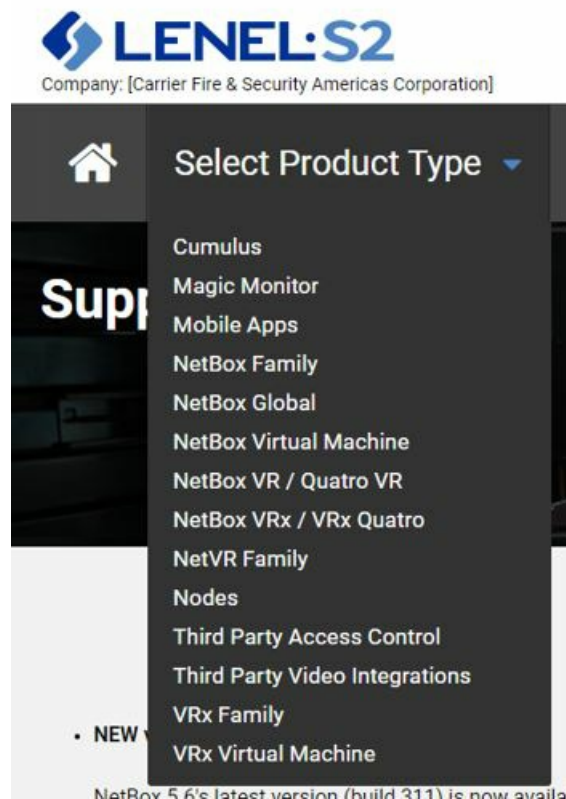

Once logged in, you have two options for finding documents related to the NetBox Ecosystem:

**First**, you can use the Search feature to find the relevant documentation. On the Support Central home page, the Search bar is located on the top right of the page:

Using this search field will return links to PDF documents related to the search request. The PDFs will be organized by documentation category (tech notes, release notes, etc.) Clicking on a link will download the PDF documentation to your computer.

**Second**, to reach product-specific pages, use the pull-down menu labeled “Select Product Type” on the home page.

Choosing a product type will bring you to a page or series of pages dedicated to whatever product you

chose. Those pages will have links to the related documentation, or lead you to documentation specific pages for that product.

**If you need help locating specific documentation,** please contact Technical Support by calling **+1.508.663.2505** or emailing [support.lenels2@carrier.com](mailto:support.lenels2@carrier.com)
