

Try to remove login from Global user, get hibernate error

Last Modified on 05/14/2024 4:31 pm EDT

If you get a hibernate error when clearing a login in global then make sure there are no alarms adopted by the user.

- 1- Select user_id from personinfo.users where person_id=xxxxx
 - 2- Select * from transient_alarms where owner_id=<user_id>
 - 3- Delete from transient_alarms where owner_id=<user_id>
-
